

WATERSAVR O&G™

a RESENTECH product

“The Sustainable Solution for Oilfield Water Loss”

Evaporation from Water Storage Ponds is Costly

Evaporation is a persistent issue, resulting in the continuous loss of water

WaterSavr O&G™ Saves Costs by Reducing Evaporation

APPLICATION AND SELF-SPREADING OF WATERSAVR O&G™

EFFECTIVE & EFFICIENT

- Reduces evaporation by 25-35%
- One-pound protects one surface-acre

ECONOMICAL

- Zero CAPEX required
- ROI exceeds 3:1

SIMPLE TO APPLY

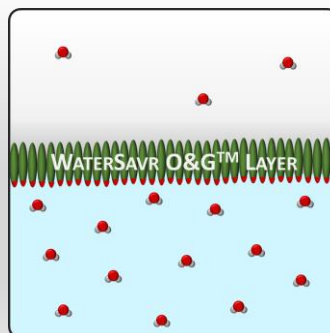

- Pre-packaged for ease of use
- Automatic dispenser available

SAFE & CONVENIENT

- Biodegradable
- Environmentally friendly

Technology

WaterSaver O&G™ is a patented **chemical treatment** technology that produces a **one-molecule thick** surface layer. The surface layer **self-assembles** and impedes the transfer of water molecules into the atmosphere.
